

**Lots of People Pitched in to make them**

**We hope lots more pitch in to fill them!**

This winter, Lynn White got together with Helene Paulis, a member and talented artist, and our new beautiful, durable, *identifiable* donation boxes were conceived. Helene has volunteered at many events but isn't available to attend all our functions. Making donation boxes was a perfect fit for her & for us. She could do it at her convenience and do something that she loves doing. She also had the perfect inspiration for the dog on the boxes...Oreo, her own dog...see story below. We'd like to thank Lynn, Helene and the following for their contributions to making our new boxes. Jeff and Leslie Papesch donated plywood. Larry Krueger cut out all the boxes, furnished hinges, and helped assemble the boxes. Gene Dennis provided the jig saw. Lyle Johnson cut out animal figures. Jerry Bauersachs painted the boxes. Lyle & Cherrilyn Johnson provided and assembled the Locks and Hardware. Barb Nikles provided the decals. Lynn White collects and counts the money each month. We thank the merchants that have accepted our boxes. Each drop of a coin gets us closer to running our shelter!!

There are many ways to help with Humane Society projects. If you have a talent or idea you would like to share...let us know! **Find our NEW boxes at the following locations. Thank you retailers!!**

**Oreo** is a Border Collie that I rescued from Logan County Animal Control. I first fell in love with her when she was visiting the Dog Daze Celebration downtown Lincoln. She was one of the dogs waiting to be adopted from Animal Control. They brought her downtown with them. The first time I saw her, I didn't realize she was missing her front leg. The story goes she wandered onto a farmer's property, so he shot her. The damage was so great, her leg had to be amputated. However, as I said, it took a second look for me to realize the leg was missing. She runs around just fine, can easily jump on the couch and chase the occasional squirrel in her own back yard. She has exceptional speed when it is time to run to the food bowl. And, she has done a very good job training me. *Helene Paulis*
